

## PUSH VIDEO Series

### Overview

Push Video pushes your worry away.

This camera series features powerful mobile surveillance, especially the sending of active event notifications with video playback to iPhone, iPad, Galaxy and other Android devices. As long as our free mobile app, EagleEyes, is installed, you'll be able to receive notifications right after event occurrence within 5 seconds, and see what happened later. It keeps an eye on the thing or area important for you and never gets asleep.

To extend the application of the camera to home automation or alarm emphasis, an I/O port is provided to connect external devices. Furthermore, this camera series can work well with our NVR series to save all your event recordings for later checking.

# AVN801

## 1.3 Megapixel Network Camera

Need a quick solution for easy monitoring with event notifying? AVN801 might be the one you need.

This megapixel camera, AVN801, supports HD image display, allowing users to have clear and sharp monitoring pictures. For any alarm event triggered by the internal human detection sensor or the external alarm-in device, users will be pushed for this event and is able to see the recording video on their mobile devices with our mobile app, EagleEyes, installed.

### PUSH VIDEO, Get event video call in 5 sec. for human detection or alarm event

When a self-defined event occurs, such as human or alarm, this camera will immediately make a video call to your iPad, iPhone or Android phone which will then activate our mobile surveillance software, EagleEyes, automatically for remote access.

## AVN805

### 1.3 Megapixel IR Network Camera

Need a quick solution for easy monitoring with event notifying? AVN805 might be the one you need.

This megapixel camera, AVN805, features its stylish design and supports HD image display, allowing users to have clear and sharp monitoring pictures. For any alarm event triggered by the internal human detection sensor or the external alarm-in device, users will be pushed for this event and is able to see the recording video on their mobile devices with our mobile app, EagleEyes, installed.

What's more, its stylish design suits stylish interior design, suits stylish you.

### **PUSH VIDEO, Get event video call in 5 sec. for human detection or alarm event**

When a self-defined event occurs, such as human or alarm, this camera will immediately make a video call to your iPad, iPhone or Android phone which will then activate our mobile surveillance software, EagleEyes, automatically for remote access.

## AVN807A

### 1.3 Megapixel IR Bullet Network Camera

Need a quick solution for outdoor day & night monitoring with event notifying? AVN807A might be the one you need.

This megapixel camera, AVN807A, is an outdoor-use IR camera with 35 IR LEDs, and supports HD image display, allowing users to have clear and sharp monitoring pictures. For any alarm event triggered by the external alarm-in device, users will be pushed for this event and is able to see the recording video on their mobile devices with our mobile app, EagleEyes, installed.

What's more, its IR projection distance could reach up to 15 meters for dark area monitoring, suitable for places like factories or warehouses.

#### **PUSH VIDEO, Get event video call in 5 sec. for an alarm event**

When an alarm event occurs, this camera will immediately make a video call to your iPad, iPhone or Android phone which will then activate our mobile surveillance software, EagleEyes, automatically for remote access.

## AVN80X

### 1.3 Megapixel Network Camera

#### Push Video Pushes Your Worries Away.

This camera series features powerful mobile surveillance, especially the sending of active event notifications with video playback to iPhone, iPad, Galaxy and other Android devices. As long as our free mobile app, EagleEyes, is installed, you'll be able to receive notifications right after event occurrence within 5 seconds, and see what happened later. It keeps an eye on the thing or area important for you and never gets asleep.

To extend the application of the camera to home automation or alarm emphasis, an I/O port is provided to connect external devices. Furthermore, this camera series can work well with our NVR series to save all your event recordings for later checking.

#### PUSH VIDEO - Get event video call in 5 sec. for human detection or alarm event

When a self-defined event occurs, such as human or alarm, AVN80X will immediately make a video call to your iPad, iPhone or Android phone which will then activate our mobile surveillance software, EagleEyes, automatically for remote access.

## Powerful Remote Surveillance on Multiple Mobile Platforms

Mobile surveillance via many popular mobile platforms, such as iPhone®, iPad®, Android™ and Nokia®, is supported to fulfill various users' demands. Our self-developed mobile solution, "EagleEyes", can be installed for surveillance, anywhere & anytime on your mobile phone. Please visit: [EagleEyes](#) page for more details.

## AVN812

### 1.3 Megapixel Wireless Network Camera

Need a quick solution for easy monitoring and wireless connection with event notifying? AVN812 might be the one you need.

This megapixel camera, AVN812, supports HD image display, allowing users to have clear and sharp monitoring pictures. For any alarm event triggered by the internal human detection sensor or the external alarm-in device, users will be pushed for this event and is able to see the recording video on their mobile devices with our mobile app, EagleEyes, installed. Besides, this camera supports wireless network connection. There's no

need to worry about the distance between your wireless router and your camera, and how long the network cable should be prepared in your house.

### **PUSH VIDEO, Get event video call in 5 sec. for human detection or alarm event**

When a self-defined event occurs, such as human or alarm, this camera will immediately make a video call to your iPad, iPhone or Android phone which will then activate our mobile surveillance software, EagleEyes, automatically for remote access.

## ETS Series

ETS, event-trigger system, is a special camera type of AVTECH, featuring external alarm device connection to extend the application of the camera to home automation of alarm emphasis. Every camera in this series is capable of connecting other alarm devices, such as magnetic contacts or a buzzer, to enhance the detection ability of the camera.

Furthermore, this camera series can work well with our NVR series to save all your event recordings for later checking. When it's connected to certain NVR models, active event notifications to iPhone, iPad and Android mobile devices, Push Video, is possible to help users know what's happening now.

## AVM217

### IR Bullet Network Camera

Need a quick solution for indoor day & night monitoring? AVM217 might be the one you need.

This camera, AVN217, is an indoor-use IR camera with 12 IR LEDs, and its IR projection distance could reach up to 10 meters for dark area monitoring, suitable for places like shops or offices.

It's also capable of connecting external alarm devices, such as a buzzer or magnetic contacts, for function scalability. What's more, POE (power-over-ethernet) is also possible for this camera.

For data storage, in addition to use with AVTECH NVRs, this camera also supports ONVIF standard to use with other brand's NVR and simplify system integration.

## External Alarm I/O Accessories

This camera supports all kinds of N.O. / N.C. type alarm sensors; for example, active infrared sensor, smoke detector, magnetic contacts and so forth to extend the flexibility of IP surveillance.

## AVM301

### 1.3 Megapixel Network Camera

Need a quick solution for indoor monitoring with human detection? AVM301 might be the one you need.

This megapixel camera, AVM301, supports HD image display, allowing users to have clear and sharp monitoring pictures. In addition to its built-in sensor, this camera is also capable of connecting external alarm devices, such as a buzzer or magnetic contacts, for function scalability.

For data storage, in addition to use with AVTECH NVRs, this camera also supports ONVIF standard to use with other brand's NVR and simplify system integration.

### External Alarm I/O Accessories

This camera supports all kinds of N.O. / N.C. type alarm sensors; for example, active infrared sensor, smoke detector, magnetic contacts and so forth to extend the flexibility of IP surveillance.

## AVM328A

### 1.3 Megapixel Dome Network Camera

Need a quick solution for indoor day & night monitoring? AVM328A might be the one you need.

This megapixel camera, AVM328A, is an indoor-use IR dome camera with 12 IR LEDs, and supports HD image display, allowing users to have clear and sharp monitoring pictures. Its IR projection distance could reach up to 15 meters for dark area monitoring, suitable for places like factories or warehouses.

It's also capable of connecting external alarm devices, such as a buzzer or magnetic contacts, for function scalability. What's more, POE (power-over-ethernet) is also possible for this camera.

For data storage, in addition to use with AVTECH NVRs, this camera also supports ONVIF standard to use with other brand's NVR and simplify system integration.

### External Alarm I/O Accessories

This camera supports all kinds of N.O. / N.C. type alarm sensors; for example, active infrared sensor, smoke detector, magnetic contacts and so forth to extend the flexibility of IP surveillance.

## Economic Series

### Overview

This camera series is designed to satisfy the basic needs of simple setup and remote monitoring with high image quality. And this camera series all supports ONVIF to work with other brand's NVR to save what the camera sees for future checking.

## AVN211V

### Network Camera

Need a simple solution for indoor monitoring? AVN211V might be the one you need.

For online viewing, you could use 5 commonly-seen web browsers (Internet Explorer, Mozilla Firefox, Google Chrome, Safari, & Opera) on Windows and MAC OS, or install our mobile app, EagleEyes, on 5 popular mobile platforms (iOS, BlackBerry, Android, Windows Mobile & Symbian).

For video storage, this camera supports ONVIF standard to use with other brand's NVR and simplify system integration.

### EagleEyes for Mobile Surveillance

Mobile surveillance via many popular mobile platforms, such as iPhone, BlackBerry, Win Mobile & Android, are supported to fulfill various user demands. Our self-developed mobile solution "EagleEye", can be installed for surveillance, anywhere & anytime on your mobile phone.

## AVN212V

### Wireless IR Network camera

Need a simple solution for indoor monitoring with wireless connection? AVN212V might be the one you need.

For installation, this camera supports wireless network connection. There's no need to worry about the distance between your wireless router and your camera, and how long the network cable should be prepared in your

house. You can keep the decoration clear and neat.

For online viewing, you could use 5 commonly-seen web browsers (Internet Explorer, Mozilla Firefox, Google Chrome, Safari, & Opera) on Windows and MAC OS, or install our mobile app, EagleEyes, on 5 popular mobile platforms (iOS, BlackBerry, Android, Windows Mobile & Symbian).

For video storage, this camera supports ONVIF standard to use with other brand's NVR and simplify system integration.

### **EagleEyes for Mobile Surveillance**

Mobile surveillance via many popular mobile platforms, such as iPhone, BlackBerry, Win Mobile & Android, are supported to fulfill various user demands. Our self-developed mobile solution "EagleEye", can be installed for surveillance, anywhere & anytime on your mobile phone.

## AVN244V

### 22X PTZ Network Camera

Need a wide-viewing solution for indoor monitoring? AVN244V might be the one you need.

AVN244V is a PTZ camera with 22X zoom lens to help you widen your surveillance area. You can set the camera on patrol to several points regularly, or move to any place you like and zoom in up to 22X ratio to see things clearly.

You can also configure the auto tracking function to monitor one place and activate the camera to move with the moving object automatically to collect the full evidence.

For online viewing, you could use 5 commonly-seen web browsers (Internet Explorer, Mozilla Firefox, Google Chrome, Safari, & Opera) on Windows and MAC OS, or install our mobile app, EagleEyes, on 5 popular mobile platforms (iOS, BlackBerry, Android, Windows Mobile & Symbian).

For video storage, this camera supports ONVIF standard to use with other brand's NVR and simplify system integration.

## **EagleEyes for Mobile Surveillance**

## AVN252V

### IR Bullet Network Camera

Need a quick solution for outdoor day & night monitoring? AVN252V might be the one you need.

AVN252V is an IR camera with 56 IR LEDs and smart light control, suitable for night surveillance up to 40 meters without picture overexposure. Its weather-proof case with cable management design is also good for outdoor environments.

For online viewing, you could use 5 commonly-seen web browsers (Internet Explorer, Mozilla Firefox, Google Chrome, Safari, & Opera) on Windows and MAC OS, or install our mobile app, EagleEyes, on 5 popular mobile platforms (iOS, BlackBerry, Android, Windows Mobile & Symbian).

For video storage, this camera supports ONVIF standard to use with other brand's NVR and simplify system integration.

## AVN257

### Outdoor IR Bullet Network Camera

Need a quick solution for outdoor day & night monitoring? AVN257 might be the one you need.

This outdoor-use IR camera, AVN257, is equipped with 35 IR LEDs, and its IR projection distance could reach up to 15 meters for dark area monitoring, suitable for places like factories or warehouses.

For data storage, in addition to use with AVTECH NVRs, this camera also supports ONVIF standard to use with other brand's NVR and simplify system integration.

### EagleEyes for Mobile Surveillance

Mobile surveillance via many popular mobile platforms, such as iPhone, BlackBerry, Win Mobile & Android, are supported to fulfill various user demands. Our self-developed mobile solution "EagleEye", can be installed for surveillance, anywhere & anytime on your mobile phone.

## AVN263V

### Outdoor IR Bullet Network Camera

Need a quick solution for outdoor day & night monitoring? AVN263V might be the one you need.

AVN263V is an IR camera with 56 IR LEDs and smart light control, suitable for night surveillance up to 40 meters without picture overexposure. To quickly catch the look of whatever triggered the motion event, Smart Zoom could be your best tool, which will automatically zoom in the moving object to allow you see more clearly. What's more, its weather-proof case with cable management design is also good for outdoor environments.

For online viewing, you could use 5 commonly-seen web browsers (Internet Explorer, Mozilla Firefox, Google Chrome, Safari, & Opera) on Windows and MAC OS, or install our mobile app, EagleEyes, on 5 popular mobile platforms (iOS, BlackBerry, Android, Windows Mobile & Symbian).

For video storage, this camera supports ONVIF standard to use with other brand's NVR and simplify system integration.

### EagleEyes for Mobile Surveillance

Mobile surveillance via many popular mobile platforms, such as iPhone, BlackBerry, Win Mobile & Android, are supported to fulfill various user demands. Our self-developed mobile solution "EagleEye", can be installed for surveillance, anywhere & anytime on your mobile phone.

## AVN284V

### Outdoor 22X PTZ Network Camera

Need a wide-viewing solution for outdoor monitoring? AVN284V might be the one you need.

AVN284V is a PTZ camera with 22X zoom lens to help you widen your surveillance area. You can set the camera on patrol to several points regularly, or move to any place you like and zoom in up to 22X ratio to see things clearly.

You can also configure the auto tracking function to monitor one place and activate the camera to move with the moving object automatically to collect the full evidence.

For online viewing, you could use 5 commonly-seen web browsers (Internet Explorer, Mozilla Firefox, Google Chrome, Safari, & Opera) on Windows and MAC OS, or install our mobile app, EagleEyes, on 5 popular mobile platforms (iOS, BlackBerry, Android, Windows Mobile & Symbian).

For video storage, this camera supports ONVIF standard to use with other brand's NVR and simplify system integration.

## AVN362V

### 1.3 Megapixel Outdoor IR Network Camera

Need a quick solution for outdoor day & night monitoring with HD pictures? AVN362V might be the one you need.

AVN362V is a megapixel IR camera with 56 IR LEDs and smart light control, suitable for night surveillance up to 40 meters without picture overexposure. Besides, it supports HD image display, allowing users to have clear and sharp monitoring pictures even when the pictures are zoomed in.

To quickly catch the look of whatever triggered the motion event, digital Smart Zoom could be your best tool, which will automatically zoom in the moving object to allow you see more clearly. What's more, its weather-proof case with cable management design is also good for outdoor environments.

For online viewing, you could use 5 commonly-seen web browsers (Internet Explorer, Mozilla Firefox, Google Chrome, Safari, & Opera) on Windows and MAC OS, or install our mobile app, EagleEyes, on 5 popular mobile platforms (iOS, BlackBerry, Android, Windows Mobile & Symbian).

For video storage, this camera supports ONVIF standard to use with other brand's NVR and simplify system integration.

### **EagleEyes for Mobile Surveillance**

Mobile surveillance via many popular mobile platforms, such as iPhone, BlackBerry, Win Mobile & Android, are supported to fulfill various user demands. Our self-developed mobile solution "EagleEye", can be installed for surveillance, anywhere & anytime on your mobile phone.

## AVN363A

### IR Bullet Network Camera

Need a quick solution for outdoor day & night monitoring with HD pictures? AVN363A might be the one you need.

AVN363A is a megapixel IR camera with electrical vari-focal lens (f4mm ~ f9mm), 56 IR LEDs and smart light control, suitable for night surveillance up to 40 meters without picture overexposure. Users could make focal adjustment electrically based on their installation environments. Besides, it supports HD image display,

allowing users to have clear and sharp monitoring pictures even when the pictures are zoomed in.

To quickly catch the look of whatever triggered the motion event, Smart Zoom could be your best tool, which will automatically zoom in the moving object to allow you see more clearly. What's more, its weather-proof case with cable management design is also good for outdoor environments.

For online viewing, you could use 5 commonly-seen web browsers (Internet Explorer, Mozilla Firefox, Google Chrome, Safari, & Opera) on Windows and MAC OS, or install our mobile app, EagleEyes, on 5 popular mobile platforms (iOS, BlackBerry, Android, Windows Mobile & Symbian).

For video storage, this camera supports ONVIF standard to use with other brand's NVR and simplify system integration.

What's more, POE (power-over-ethernet) is also possible for this camera.
